Hilton Haulage Limited Partnership

Dear Grants Adviser,

It is our pleasure to write a letter of support for C-Play in their application to New Zealand Lotteries Grant Board for the Community Facilities Fund to create a new sensory filled adventure playground located at Caroline Bay, Timaru.

Hilton Haulage is a transport and logistics company that has been operating out of Timaru for almost fifty years. We provide transport, storage and warehousing services across Aotearoa. Over the years, Hilton Haulage has grown to over 500 kaimahi nationwide, 250+ trucks and operates throughout 17 locations.

Given our Timaru roots, we see ourselves as well imprinted in the south Canterbury community and know the township to be a great place for whanau to raise tamariki. In recent years, whanau and whanaungatanga has become even more important to the physical and mental health of our tamariki.

We are proud to support the grant application and focus on enriching the lives of our young whanau now and for generations after us. The application will provide a free, fun experience for residents, attracting visitors with economic benefits for the community and improving the social, physical and mental health of our tamariki.

In conclusion, we fully support the efforts of the C-Play committee as they seek external funding to support a program designed to enhance the life for young whanau within the Timaru district.

Ngā mihi,

Dylan Fitzgerald
